🔗 Portfolio 🏠 Github

📋 PROFESSIONAL SUMMARY

Final-year BTech Computer Science (Artificial Intelligence) student with hands-on experience in Machine Learning, Deep Learning, Generative AI, and Agentic AI. Skilled in building AI-powered applications using Python, LLMs, RAG, and modern AI frameworks, with a strong foundation in Data Structures & Algorithms.

🎓 EDUCATION

B.Tech. Computer Science (AI)
Dr. A.P.J. Abdul Kalam Technical University

09/2023 – Present
Greater Noida , India

🧠 SKILLS

Programming Languages

Python,C++,SQL,JavaScript

Deep Learning

Artificial Neural Networks (ANN), Convolutional Neural Networks (CNN), Recurrent Neural Networks (RNN), Long Short-Term Memory (LSTM), Gated Recurrent Unit (GRU), TensorFlow, PyTorch, Keras.

Agentic AI

LangChain, LangGraph, AI Agents, Multi-Agent Systems, Tool Calling, Agent Workflows, AI Agent Orchestration.

Machine Learning

Supervised Learning , Unsupervised Learning , Regression Classification, Clustering, Feature Engineering, Model Evaluation,Scikit-learn

Generative AI

Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), Embeddings, Semantic Search, Vector Databases, Context Engineering.

Tools & Technologies

Hugging Face Transformers, FAISS, Sentence Transformers, NumPy, Pandas, Matplotlib, OpenCV, Groq API, Google Gemini API, REST APIs, Streamlit, Git, GitHub, MongoDB, MySQL

📁 PROJECTS

AskAKTU – AI-Powered College Assistant 🔗

03/2026 – 04/2026

Tech Stack: Python, LangChain, LangGraph, FAISS, Hugging Face, Groq (Llama 3.3), Streamlit

- Built an AI-powered college assistant using a **RAG** workflow to answer academic, fee-related, and general queries.
- Developed separate **FAISS vector stores** for semantic retrieval from academic and fee documents using **LangChain** and **Hugging Face Embeddings**.
- Integrated **Groq (Llama 3.3 70B)** for context-aware response generation and deployed an interactive **Streamlit** application.

DeepScope – Multi-Agent Research Assistant 🔗

05/2026

Tech Stack: Python, LangGraph, LangChain, Tavily, BeautifulSoup, Groq, Streamlit

- Built a **multi-agent AI research assistant** using **LangGraph** and **LangChain** with autonomous Search, Reader, Writer, and Critic agents.
- Integrated **Tavily Search** for real-time web retrieval and implemented an iterative workflow for research, summarization, and quality review.
- Developed an interactive **Streamlit** interface to generate structured, high-quality research reports with AI agent orchestration.

🎓 CURRICULUM

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Machine Learning, Deep Learning, Data Mining, and Web Development.
